

ADVANCED RESISTANCE MANAGEMENT

Bypasses chemical immunity by mechanically encapsulating and neutralising target pests.

RAPID EFFICACY & ZERO TRACE

Engineered for immediate knockdown while maintaining a completely residue-free environment.

PERFORMANCE MULTIPLIER

Seamlessly integrates with existing insecticides to exponentially amplify their lethal control.

TARGETED PEST:

American & German Cockroach

Flies

Mosquito

Ants

Spider

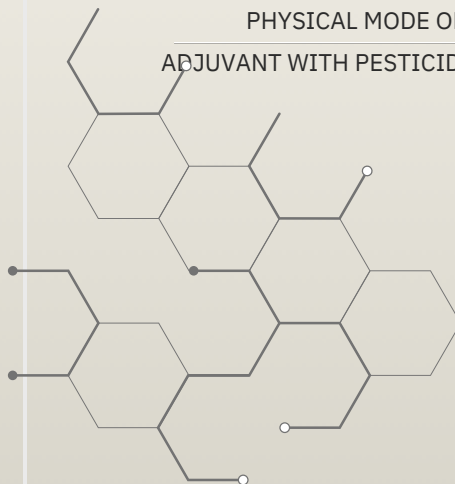

Bedbug, Fleas, Ticks, Store Product Insects

SynerMax

UNIQUE FORMULATION

PHYSICAL MODE OF ACTION

ADJUVANT WITH PESTICIDE AS SYNERGIST

CONTENTS

3-(Polyoxyethylene)propylheptamethyltrisiloxane: $\geq 70\%$
Inert / Non-Hazardous Ingredients (Balance): $\geq 30\%$

DIRECTIONS FOR USE

Application Method: Direct spray and ULV only

Standalone Solution: Dilution 1:200
(5ml SynerMax per 1 Litre of water)

Adjuvant Solution: Dilution 1:500
(2ml SynerMax per 1 Litre of water + insecticide)

Mixing: Half-fill tank, add insecticide (if applicable), top up with water, add SynerMax. Shake well.

SAFETY & STORAGE

Child Safety: Keep out of reach of children.

Food Safety: Ensure all exposed food, utensils, and surfaces are securely covered.

Handling: Undiluted concentrate can cause serious eye irritation. Wear gloves and eye protection. Avoid applying near aquatic life.

Storage: Keep cool, dry, avoid direct sunlight.

Shelf Life: 36 months | **MFG Date:** Refer to packaging.
